# History

Washington Tuberculosis Collaborative Network (WTCN) was established late 2017

Foundational public health grant awarded to Public Health Seattle & King County (PHSKC) to support other counties needing TB program assistance

PHSKC was available to assist, either in person or remotely, with a variety of TB activities such as consultations, case management, investigations, and training

# King County Tuberculosis Program

eDOT

# Shared Services Support (Last 6 months)

- ▶ >37 Consultations
- ▶ 3+ Contact Investigations
- ▶ 10+ instances of sharing educational/ protocol information

What services would be  
valuable to you?

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. The shapes are primarily triangles and polygons, creating a dynamic, layered effect. A thin white line is visible, extending from the bottom left towards the center of the composition.
